HONORING JIM VOLZ

**HON. PETER WELCH**

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 12, 2017*

Mr. WELCH. Mr. Speaker, I rise today to salute Jim Volz, a public servant widely admired and respected, who retired on June 9, 2017, after 32 years of public service for the people of the State of Vermont.

Jim served as Chair of the Vermont Public Service Board, a challenging and demanding role, guiding Vermont through a period of dramatic change in the State's energy policy. His reputation as thorough and fair, considerate and wise, was essential to the progress Vermont made during challenging times.

As evidence of the high esteem Jim enjoys, he was first appointed by a Republican governor and then reappointed by a Democratic governor. Jim was seen by all as nonpartisan and scrupulously fair, with an incisive mind, even temperament, and gracious disposition.

Before being appointed Chair of the Public Service Board, Jim served 20 years at the Vermont Department of Public Service—sixteen of those as Director of Public Advocacy. That totals 32 consequential years in the regulatory arena.

Vermont's good fortune began in 1981 when Jim came to Vermont to clerk for Justice Franklin Billings on the Vermont Supreme Court.

Mr. Speaker, on behalf of the grateful State of Vermont, I say thank you to Jim Volz for his career of dedicated service to the people of Vermont.

INTRODUCTION OF THE PARIS ACT

**HON. EARL BLUMENAUER**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 12, 2017*

Mr. BLUMENAUER. Mr. Speaker, earlier this month, the president announced that he would withdraw from the non-binding Paris Agreement, undermining the credibility of the United States and displaying a complete disregard for the effects of climate change. This is unacceptable.

Climate change is real. We are already experiencing rising sea levels and harsher storms at an accelerated pace, and without action, they are only going to get worse. Poll after poll show that the majority of American people support staying in the Paris Agreement, and the scientific community has reached a clear consensus that climate change is largely caused by human activity. In the face of these facts, the president continues to undermine environmental protections and reject the science of climate change.

The American people should not be responsible for bailing out leaders who ignore science to gain political points, while subjecting the United States—and the rest of the world—to the catastrophic effects of climate change. That's why today I am introducing the Prohibiting Aid for Recipients Ignoring Science Act, or the PARIS Act, to ensure that any president has a stake in the catastrophic consequences of ignoring climate science.

The PARIS Act would prevent properties owned by the president's family from receiving federally subsidized flood insurance from the National Flood Insurance Program. The president should not be able to shift costs to taxpayers as he does business in flood-prone areas while withdrawing from efforts to mitigate the impacts of climate change.

I urge my colleagues to join me in working to give the president a stake in this fight and to take serious action on addressing climate change. The fate of our children, our grandchildren, and the planet depends on it.
